SUMMARY

C#/.NET Full Stack Developer with **almost 3 years of experience** contributing to enterprise application development and enhancement. Experienced in building backend services, RESTful APIs, frontend features, and database-driven solutions, with hands-on exposure to cloud deployments and business workflow automation. Strong focus on writing maintainable code, solving application problems, and working effectively in Agile development teams, with growing experience in **AI-enabled application development**.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core Web API, Entity Framework Core, LINQ, REST APIs

Frontend: React, Angular, TypeScript, JavaScript, HTML, CSS

Database: SQL Server, PostgreSQL

Azure & DevOps: Azure App Service, Azure Functions, Azure DevOps, CI/CD

AI: Azure AI, Azure OpenAI, Semantic Kernel, Prompt Engineering, Generative AI

Tools: Git, GitHub, Visual Studio, VS Code, Figma, Swagger, Postman

EXPERIENCE

Capgemini

Senior Analyst / Software Engineer

Jun. 2025 – Present

Navi Mumbai, India

Architect Portal | React, ASP.NET Core Web API, PostgreSQL, Azure

- Contributed to the development of an enterprise portal using **React and ASP.NET Core Web API**, implementing RESTful APIs and dashboards for performance, certification, and trend analytics; **reduced manual reporting effort by 40%**.
- Developed backend services using **C#, Entity Framework Core, LINQ, and PostgreSQL**, implementing validation, exception handling, and optimized data access; deployed on **Azure App Service**.

KM Portal | C#, .NET, Azure Functions, MSSQL

- Contributed to enhancements in an enterprise knowledge management portal using **C#/.NET and Azure Functions**, automating business workflows and content management processes; **reduced manual content-update effort by 30%**.
- Implemented data-access and business logic using **MSSQL, Entity Framework Core, and LINQ** to support content retrieval and operational workflows.

Capgemini

Software Analyst / Engineer

Dec. 2023 – Jun. 2025

Navi Mumbai, India

Sustainability Portal | React, ASP.NET Core Web API, MSSQL, Azure DevOps

- Contributed to the development of an enterprise portal using **React, ASP.NET Core Web API, and MSSQL**, implementing features for event registration and community engagement workflows.
- Developed RESTful APIs, database operations, validation, and error handling using **C#, Entity Framework Core, and SQL Server**, with deployment workflows through **Azure DevOps**.

Retail Analytics Portal | Angular, ASP.NET Core Web API, MSSQL

- Contributed to the development of reporting and forecasting workflows using **Angular and ASP.NET Core Web API**, integrating .NET APIs with **Python-based reporting endpoints**.
- Supported **Azure DevOps CI/CD** processes for automated build, testing, and deployment across Agile development cycles.

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate (AZ-204) | **Microsoft Certified: Azure AI App and Agent Developer Associate (AI-103)** | **Anthropic: Claude Developer Foundations**

EDUCATION

University of Mumbai

Bachelor of Technology (B.Tech.) in Information Technology | CGPA: 8.67

Aug. 2019 – May 2023

Mumbai, India
